SITUATION IN MEXICO
REACHES ACUTE STAGEOperation of the Associated
Press Leased Wire Com-
manded by the Gov't.

This Was on the Plea of Military Need, But Was Really to Prevent News Leaking Out—Francisco Madero is Directing Movement of the Revolutionists. United States is Taking Precautions.

By Associated Press.

Laredo, Texas, Nov. 21.—The Mexican situation appears serious tonight. For the first time in fifteen years the operation of the leased wire of the Associated Press to Monterrey and Mexico City was commanded by the Mexican government on the plea of military need. Federal Manager Nue Laredo ordered the wire cut off from the Laredo office to prevent information being gleaned by messages. The instructions came from the headquarters of the federal telegraphs at Mexico City, where it was explained the government would need all the wires throughout the night.

Francisco Madero is said to be directing the revolutionists. Last spring he was nominated for the presidency against Diaz. Madero claimed he could not get justice in the courts and was imprisoned on the charge of insulting the government. He was a prisoner until after the election and was released on bail and came to San Antonio, where it is said he has been secretly preparing his partisans for a widespread revolt, planned to commence last Sunday.

Madero slipped away last Friday and was met by four companies of horses and a guide, departing westward to take command of the revolutionary forces.

The United States is taking steps to protect the national interest. Governor Campbell has ordered all the Texas Rangers to the Rio Grande. A double guard is over the gun boat at Fort McIntosh to prevent seizure by the revolutionists.

This was the burden of the day's proceedings.

Ingenious Methods Adopted in
Georgia to Purchase Votes

By Associated Press.

Atlanta, Ga., Nov. 21.—Ingenious methods by which votes are alleged to have been purchased in the fall election in Fannin county, Georgia, came to light today in the publication here of indictments which have been on file in Fannin county archives for some time.

This county is on the Tennessee border, and after 25 years of solid democracy, it went straight Republican, a state senator, J. R. Kincaid, being the only man of Democratic faith to win an office. One of the main issues was whether the Ducktown, (Tenn.) Copper Company was an aid or a detriment to the county. Although Ducktown is in Tennessee, the effects of fumes from its plant

Gompers Opposed Resolution, Declaring Such Matters Should Be Left With International Officers, and it Was Defeated—Railroad Employees Are Rebuffed in the Resolution Which Was Passed.

By Associated Press.

St. Louis, Nov. 21.—The American Federation of Labor today refused to adopt a resolution centralizing in its officials the power to call general strikes in all localities. Gompers led the opposition against the resolution. He declared such matters should be left to the international officers governing the local unions. One resolution declared railroad employees who petitioned the Interstate Commerce Commission to permit the railroads to raise their freight rates. The resolution stated that if the water was raised out of the stock, they would raise higher rates to increase their profits.

The convention adopted a resolution opposing government appropriations for rivers and harbors unless the cities or states interested provide free wharves for the landing of all vessels without discrimination.

Other resolutions provided the encouragement of unions for trades of women stenographers and office workers generally, favoring a two-cent tax and the forty-hour law for postal clerks, and a law for congress and protesting against executive order prohibiting the use of red flags and other symbols for reds.

Three Members of the Firm of Burr Bros. Arrested, and Are Charged With Swindling Investors Out of \$40,000,000—General Hitchcock Says the Public Has Been Swindled Out of \$100,000,000 in Five Years.

By Associated Press.

New York, Nov. 21.—In raids so important that Postmaster General Hitchcock took charge in person, inspectors swooped down on two concerns this afternoon charged with swindling the public out of more than forty million dollars by the fraudulent use of the mails. Sheldon H. Burr, president of Burr Bros.; Eugene Burr, secretary and treasurer, and Frank Tobey, vice-president, are held under twenty thousand dollars bond each.

The government charges that the firm sold between forty and fifty million dollars of mining and oil stocks worth little or nothing. Charles L. Vaughan, director of the Continental Wireless Telegraph & Telephone Company, incorporated in Arizona, was arrested in the second raid and held under ten thousand dollar bond. Inspectors say his company sold a million dollars of stock which brought no return to investors.

Both raids indicate the government is not contented with issuing fraud orders. Hitchcock estimates the public has been fleeced out of one hundred million dollars by get-rich-quick concerns within the past five years, but declares their day is gone. The postoffice department, under the present administration, intends to keep after them every minute. He indicated that other arrests, involving corporations, may be expected shortly.

NEW ORLEANS MARKET, BOTH
BULLS AND BEARS BUYING.

By Associated Press.

New Orleans, Nov. 21.—The census report on the ginning of cotton up to November 14 was received with great excitement in the cotton market. The figures, 8,764,153 bales, were about a quarter of a million bales lower than expected and caused an immediate rise as soon as trading began. The report was issued five minutes before the market opened. First prices of futures were 34 to 41 points over Saturday's close. Both bulls and bears bought, although probably on the first call frightened shorts were the heaviest purchasers. After the call, commission houses began to receive large numbers of buying orders from outside traders, who were going long. The market was well sustained in the early trading in the face of heavy profit-taking by satisfied long.

W. P. Brown was on the floor of the cotton exchange after a long absence in New York. Although he expressed very bullish opinions on cotton, he took no open part in the trading.

lance from the depot to the Tolstoi home is not great, and the casket, according to the Russian custom, probably will be borne to the house on the shoulders of the mourners. Since early morning the countess had sat in the station master's hut, where her husband died, with her head bowed upon the casket and weeping. She appeared not to notice the defile of peasants admitted to the death chamber and quitted her position only when M. Gunzberg, the sculptor, came to take a death mask. Deionid O. Pasternak, the portrait painter, sketched the scene. This was also simple as Tolstoi could have wished.
